## LA PREALPINA. UNA STORIA DI SUCCESSO DA OLTRE 40 ANNI.

La Prealpina è un'Azienda da sempre leader nella produzione di portatutto, portabici e portasci per ogni tipo di veicolo.

Un'Azienda a 360 gradi, con uno spirito imprenditoriale non solo orientato alla produzione, ma concentrato in maniera decisiva nell'area di ricerca e sviluppo.

La Prealpina, nella sede di Volvera (Torino) opera con un team di specialisti che studiano nuove idee in linea con gli standard internazionali e con gli ultimi trend del mercato.

Expertise tecnico produttiva e orientamento all'innovazione: ecco gli ingredienti per un esito di successo che dura da oltre 40 anni.

Una professionalità che pone il cliente sempre al centro, con realizzazioni che coniugano design, praticità, funzionalità, alta qualità e prezzi competitivi.

I prodotti La Prealpina sono da sempre una garanzia, grazie agli studi di aerodinamica, di materiali e design, e alla certificazione di Qualità Aziendale UNI EN ISO 9001:2008.

Le fasi produttive sono curate in ogni aspetto, a partire dalla gestione della catena di realizzazione interamente in-house: progettazione, stampaggio, verniciatura e packaging.

Una produzione altamente qualificata, dall'articolo preassemblato fino al più piccolo accessorio, con una gamma di prodotti che copre l'intero range dei veicoli, anche per modelli di nicchia.

Tutto questo ha contribuito alla crescita e allo sviluppo dell'Azienda, che può vantare una rete di concessionari in tutta Italia e una presenza commerciale nei migliori punti vendita di ricambi e autoaccessori.

La Prealpina è presente con una rete di dealers in tutta Europa.

CERTIFICAZIONE DI QUALITÀ AZIENDALE  
N. 51 UNI EN ISO 9001:2015

## LA PREALPINA. UNE HISTOIRE PLEINE DE SUCCÈS DEPUIS PLUS DE 40 ANS.

La Prealpina est une entreprise depuis toujours leader dans la production de porte-touts, porte-vélos porte-skis pour tout type de véhicule.

Une entreprise à 360 degrés, avec un esprit d'entreprise non seulement orienté à la production, mais centrée de façon décisive sur la recherche et le développement.

La Prealpina, dans son siège de Volvera (Turin) opère avec une équipe de spécialistes qui étudient de nouvelles idées conformes aux standards internationaux et aux dernières tendances du marché.

Expertise technique et productive et tendance à l'innovation voici les ingrédients pour un succès qui dure plus de 40 ans.

Un professionnalisme qui place le client toujours au premier rang, avec des réalisations qui conjuguent design, aspect pratique, fonctionnalité, haute qualité et prix compétitifs.

Les produits La Prealpina sont depuis toujours une garantie, grâce aux études d'aérodynamique, de matériaux et design, et à la certification de Qualité d'entreprise UNI EN ISO 9001:2008.

Les phases productives sont soignées dans les moindres détails, à partir de la gestion de la chaîne de réalisation entièrement inhouse: projet, estampage, peinture et conditionnement.

Une production hautement qualifiée, de l'article pré-assemblé jusqu'au plus petit accessoire, avec une gamme de produits qui couvre toute la gamme des véhicules, même des modèles de niche.

Tout cela a contribué à la croissance et au développement de l'entreprise, qui peut vanter un réseau de concessionnaires dans toute l'Italie et une présence commerciale dans les meilleurs points de vente de pièces de rechange et accessoires automobiles.

La Prealpina est présente dans toute l'Europe grâce à son réseau de distributeurs.

# LA PREALPINA. EINE ERFOLGSGESCHICHTE VON ÜBER 40 JAHREN.

La Prealpina ist seit jeher ein führendes Unternehmen im Bereich der Herstellung von Gepäckträgern, Fahrradträgern und Skiträgern für Fahrzeuge aller Art.

Ein Allround-Unternehmen mit einem unternehmerischen Geist, der sich nicht nur auf die Herstellung orientiert, sondern auch entscheidend auf den Bereich von Forschung und Entwicklung konzentriert. La Prealpina beschäftigt an ihrem Standort in Volvera (Turin) ein Team von Spezialisten, das neue Ideen erforscht, die sich mit den internationalen Standards sowie mit den neuesten Markttrends auf derselben Linie befinden.

Technische und produktive Sachkenntnis sowie eine innovationsbezogene Orientierung: das sind die Basiselemente für ein erfolgreiches Ergebnis, das seit über 40 Jahren anhält.

Eine Professionalität, die den Kunden stets in den Mittelpunkt rückt und zu Realisierungen führt, die Design, Zweckmäßigkeit, Funktionalität, Güte und wettbewerbsfähige Preise in sich vereinen.

Die Produkte von La Prealpina sind dank der Studien in Bezug auf Aerodynamik, Materialien und Design sowie der unternehmerischen Qualitätszertifizierung UNI EN ISO 9001:2008 seit jeher eine Garantie.

Die Produktionsphasen werden in allen ihren Aspekten, von der vollkommen internen Steuerung des Herstellungsprozesses an, wahrgenommen: Entwicklung, Pressung, Lackierung und Packaging. Eine hochqualifizierte Produktion, vom vorassemblierten Artikel bis hin zum kleinsten Zubehörteil, mit einer Produktpalette, die das gesamte Fahrzeugsortiment abdeckt, einschließlich der Nischenmodelle.

All dies hat zum Wachstum und zur Entwicklung des Unternehmens beigetragen, das ein Vertriebsnetz in ganz Italien sowie eine Handelspräsenz in den besten Verkaufsstellen für Autozubehör und -ersatzteile vorweisen kann. La Prealpina ist mit einem Händlernetz in ganz Europa vertreten.

• The loading capacity of our products, indicated in this catalogue, are subject to the specific carrying capacities of car roof supplied by the various Car manufacturers.

## LA PREALPINA. A SUCCESS STORY FOR OVER 40 YEARS.

La Prealpina is a company which has always been a leading manufacturer of racks, bike racks and ski racks for every type of vehicle.

A firm at 360 degrees, with an entrepreneurial spirit that is not only production-oriented, but decisively concentrated in the field of research and development.

La Prealpina, in its office at Volvera (Turin) works with a team of specialists who study new ideas in line with international standards and with the latest market trends.

Technical and production expertise and a tendency towards innovation:

these are the ingredients for a successful outcome that has lasted over 40 years.

Professionalism that has always placed the customer in the center, with accomplishments that combine design, practicality, functionality, high quality and competitive prices.

La Prealpina products are always a guarantee, thanks to studies on aerodynamics, materials and design, and the Company's Quality Certification UNI EN ISO 9001:2008.

All aspects of the production stages are taken care of, starting from the operation of a production chain that is entirely in-house: design, molding, painting and packaging.

A highly qualified production, from preassembled articles to the smallest accessory, with a series of products that cover the entire range of vehicles, even for niche models.

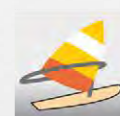

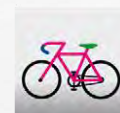

All this has contributed to the growth and development of the Company, which boasts a network of dealers throughout Italy and is commercially present in the best stores of spare parts and car accessories.

La Prealpina is present with a network of dealers across Europe.

## LP 66

PORTATUTTO-JEUX DE BARRES-UNIVERSALTRÄGER-MULTIPURPOSE ROOF RACK

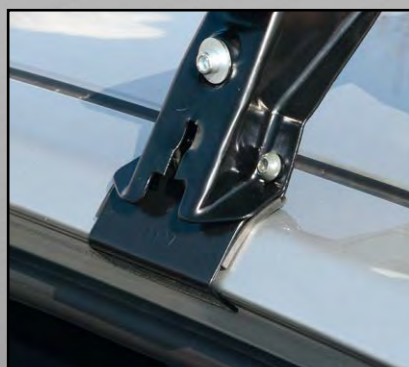

LP 66 : portatutto in solida struttura portante in lega di alluminio verniciata con polveri termoindurenti "long life". Piano di carico rivestito in PVC antiscivolo-antigraffio. Attacchi in lamiera d'acciaio stampata e verniciata con polveri termoindurenti "long life" anticorrosione. Terminale copri-attacchi realizzato in ABS e dotato di serratura con chiave. **DA CONSIGLIARE AI CLIENTI PER:** grande robustezza, resistenza all'usura e alla corrosione, rapidità di montaggio, versatilità di utilizzo. Necessario l'abbinamento al Sistema di Kit attacchi "L".

LP 66: jeux des barres de toit à structure portante solide en alliage d'aluminium peint avec des poudres thermodurcissables "longue durée". Surface de chargement recouverte de PVC antidérapant et résistant aux rayures. Supports en tôle d'acier emboutie et peinte avec des poudres thermodurcissables anti-corrosion "longue durée". Terminal d'attaque en ABS et équipé d'une serrure avec une clé. **À RECOMMANDER AUX CLIENTS POUR:** grande résistance, résistance à l'usure et à la corrosion, montage rapide, polyvalence d'utilisation. La combinaison avec le système de kit de connexion "L" est requise.

LP 66: roof rack built in solid structure in aluminum alloy painted with "long life" thermosetting powders. Loading surface covered with non-slip, scratch-resistant PVC. Brackets in pressed and painted steel sheet with "long life" anti-corrosion thermosetting powders. Terminal cover attacks made of ABS and equipped with lock with key. **TO BE RECOMMENDED TO CUSTOMERS FOR:** great strength, resistance to wear and corrosion, quick assembly, versatility of use. The combination with the "L" connection kit system is required.

LP 66: Dachträger in fester Tragstruktur aus Aluminiumlegierung, lackiert mit wärmehärtbaren Pulvern mit "langer Lebensdauer". Ladefläche mit rutschfestem, kratzfestem PVC bedeckt. Verbindungen aus gepresstem und lackiertem Stahlblech mit "langlebigen" wärmehärtenden Korrosionsschutzpulvern. Angriffe auf die Terminalabdeckung bestehen aus ABS und sind mit einem Schloss mit Schlüssel ausgestattet. **KUNDEN EMPFEHLEN FÜR:** Hohe Festigkeit, Verschleiß- und Korrosionsbeständigkeit, schnelle Montage, Vielseitigkeit der Verwendung. Die Kombination mit dem "L" -Anschlusskit-System ist erforderlich.

## LP 49

PORTATUTTO-JEUX DE BARRES-UNIVERSALTRÄGER-MULTIPURPOSE ROOF RACK

LP 49: portatutto con solida struttura portante in lega d'alluminio. Piano di carico rivestito in PVC antiscivolo-antiraffio. Attacchi in lamiera d'acciaio stampata e verniciata con polveri termoindurenti "long life" anticorrosione. Terminale copri-attacchi realizzato in ABS e dotato di serratura con chiave.

DA CONSIGLIARE AI CLIENTI PER:

grande robustezza, resistenza all'usura e alla corrosione, rapidità di montaggio, versatilità di utilizzo.

Necessario l'abbinamento al Sistema di Kit attacchi "L".

LP 49: jeu de barres avec une solide structure portante en alliage d'aluminium. Plan de chargement gainé de PVC anti-glisse et anti-rayures. Fixations en tôle d'acier emboutie, protégée par une peinture thermodurcissable "long life" anti-corrosion. Coquille couvrefixations en ABS, munie de serrure et de clé.

A CONSEILLER AUX CLIENTS POUR:

grande solidité, résistance à l'usure et à la corrosion, rapidité de montage, polyvalence.

Doit être associé au système de Kit fixations "L".

LP 49: Universalträger mit robuster Tragstruktur aus Aluminiumlegierung. Auflagefläche aus rutsch- und kratzfestem PVC, Abstützungen aus pulverbeschichtetem Stahlblech mit Langzeit-Korrosionsschutz. Abschließkappe aus ABS und abschließbar.

PRODUKTVORTEILE FÜR DEN KUNDEN:

Hohe Robustheit, Verschleißfestigkeit und Korrosionsbeständigkeit, schnelle Montage, vielseitiger Einsatz.

Sieht die Verbindung zum Bausatzsystem "L"-Anschlüsse vor.

LP 49: roof rack with sturdy aluminium alloy supporting structure. Load surface lined with non-slip, scratchproof PVC. Clamps made of pressed steel plate painted with "long life" anti-corrosion thermo-setting powders. ABS clamp-cover terminal equipped with lock and key.

TO BE RECOMMENDED TO CUSTOMERS FOR:

great sturdiness, resistance to wear and corrosion, easy mounting, versatility of use.

To be completed with the "L" attachment Kit System.

# CALYPSO

PORTATUTTO-JEUX DE BARRES-UNIVERSALTRÄGER-MULTIPURPOSE ROOF RACK

Portatutto con solida struttura portante in lega d'alluminio, supporti e attacchi in lamiera d'acciaio stampata e verniciata con polveri termoindurenti "long life" anticorrosione.

Studiato per le vetture dalle nuove forme molto tondeggianti sulle quali è impossibile fissare 2 barre portatutto a una distanza utile per il carico.

DA CONSIGLIARE AI CLIENTI PER:  
moderno design, solidità, resistenza alla corrosione.

Stabiler Lastenträger aus Aluminium.

Befestigungsteile aus formgestanztem Stahlblech, die korrosionshemmend behandelt und schwarz pulverbeschichtet sind.

PRODUKTVORTEILE FÜR DEN KUNDEN:  
Für Fahrzeuge mit sehr abgerundeten Formen konstruiert.

Galerie de toit comportant une très solide structure porteuse en alliage d'aluminium, des supports et des ancrages en tôle d'acier emboutie et peinte avec des poudres thermodurcissables longue durée anticorrosion.

Etudiée pour les modernes voitures aux formes arrondies, sur lesquelles il est impossible de fixer les deux barres de toit à une distance utile pour la charge.

A CONSEILLER AUX CLIENTS POUR:  
design moderne, grande solidité, haute résistance contre la corrosion.

Carry-all with an aluminium alloy load-bearing structure, pressed steel sheet supports and clamps.

Painted with long-life thermosetting anti-corrosion powders. Designed for cars with the new rounded forms on which it is impossible to fasten two carry-all bars at a distance that is functional to the load.

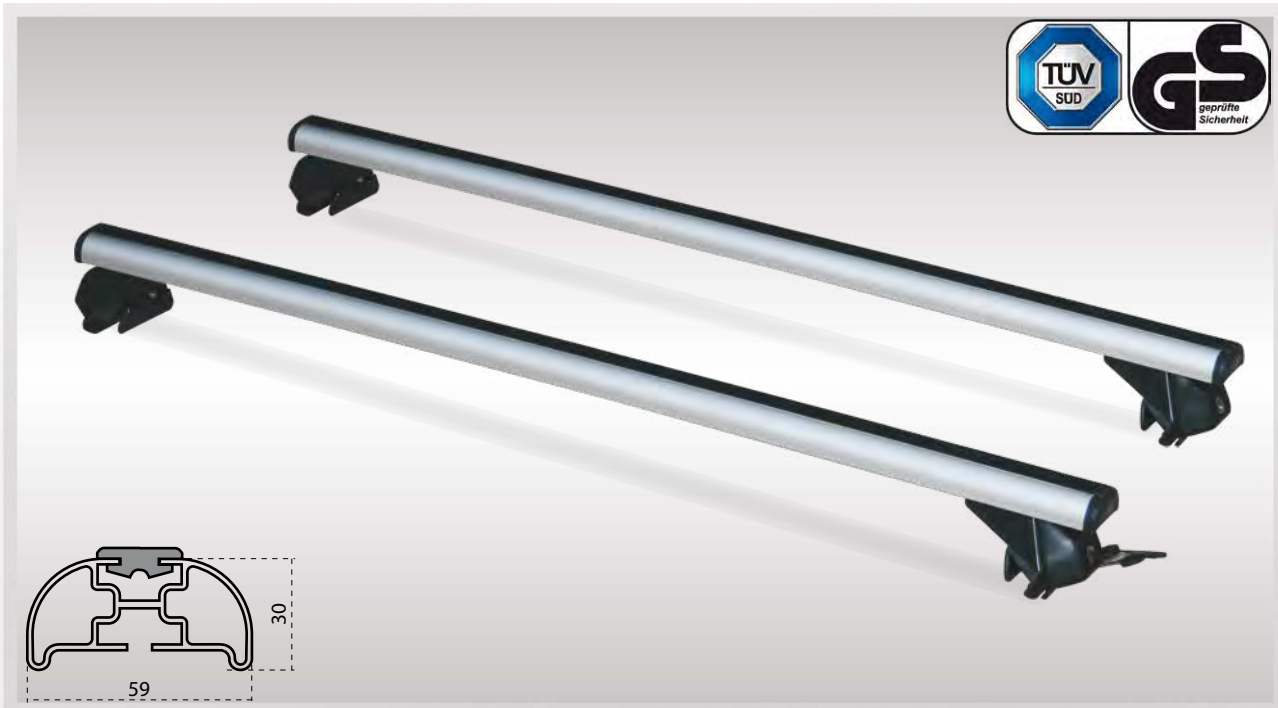

TO BE RECOMMENDED TO CUSTOMERS FOR:  
modern design, sturdiness, resistance to corrosion.

# SUPEROMEGA VANS

PORTABAGAGLI • PORTE-BAGAGES • GEPÄCKTRÄGER • LUGGAGE RACK

Portabagagli per veicoli commerciali. Struttura modulare, portante in lega leggera di alluminio anticorrosione.

Supporti in kit in lamiera d'acciaio verniciata "long life" anticorrosione, venduti separatamente per applicazione su tutti i veicoli. Commercializzato in soluzione base+kit.

DA CONSIGLIARE AI CLIENTI PER:

ottima resistenza alla corrosione, grande robustezza e potenza strutturale, eccellente capacità di carico. Necessario l'abbinamento al Sistema di Kit attacchi "SK+K" o "M".

Galerie pour véhicule utilitaire, fourgon, fourgonette et véhicules tout terrain.

Réalisée en alliage d'aluminium avec supports et fixations en acier protégé par peinture thermodurcissable. La Superomega vous est proposée en solution modulaire (rampes et barres) + kit de fixation adapté à votre véhicule.

A CONSEILLER AUX CLIENTS POUR:

Importante capacité de chargement. Protection élevée contre la corrosion. Doit être associé au système de Kit fixations "SK+K" ou "M".

Besonders stabiler Gepäcträger für kombifahrzeuge, Transporter und Geländewagen aus korrosionsfreiem Aluminium.

Verstellbare Halterungen aus lackiertem, korrosionsfreiem Stahlblech (Long Life).

Zum Verkauf steht das Basis-Set plus Zubehör.

PRODUKTVORTEILE FÜR DEN KUNDEN:

Hoher Korrosionsschutz, Robustheit, hohe ladekapazität. Sieht die Verbindung zum Bausatzsystem "SK+K" oder "M"-Anschlüsse vor.

Aluminium roof rack for commercial vehicles and off road cars. Rustproof aluminium loadbearing structure. Fitting kits built in painted steel adjustable mounts.

Available in Base + Kit solution.

TO BE RECOMMENDED TO CUSTOMERS FOR:

Maximum resistance to corrosion, excellent load capacity, great sturdiness.

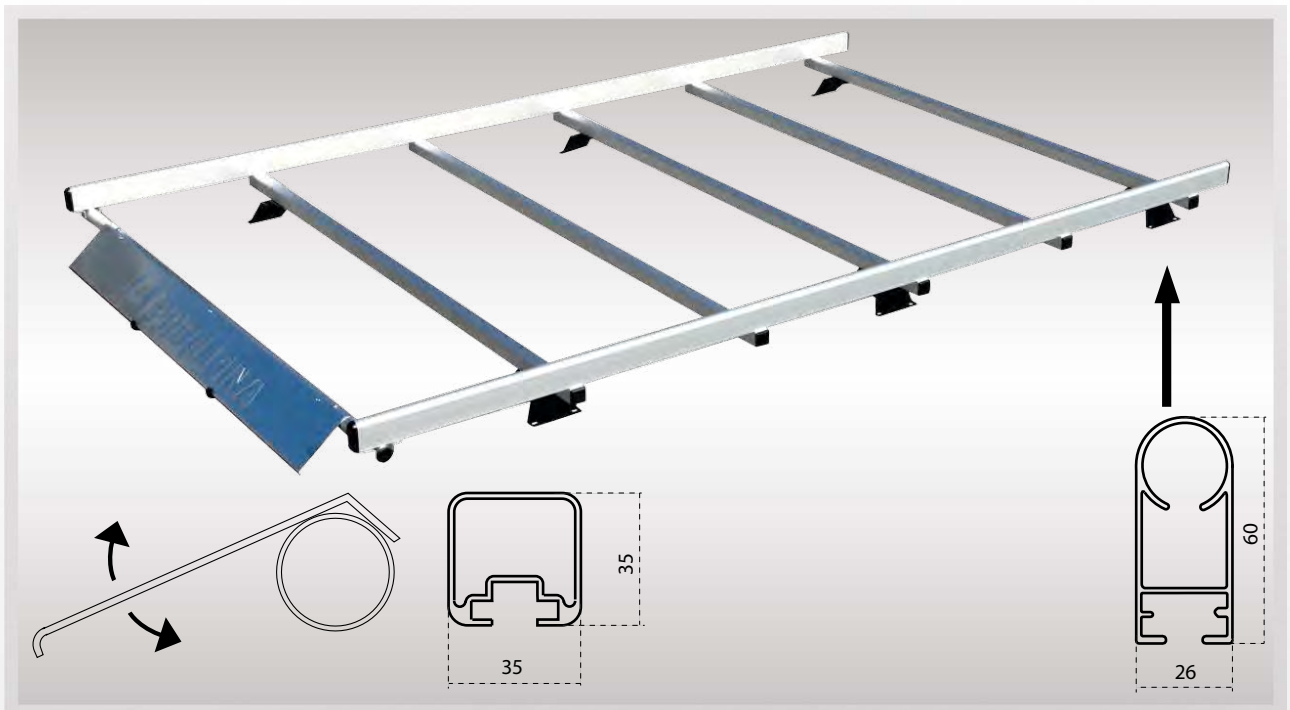

Is to be used in conjunction with the "SK+K" or "M" attachment Kit System.

# OMEGA VANS

PORTABAGAGLI • PORTE-BAGAGES • GEPÄCKTRÄGER • LUGGAGE RACK

Portabagagli per furgoni, autocarri e fuoristrada. Realizzato in profilato d'acciaio, zincato al 100%. Disponibile anche nella versione verniciata nera, trattata con polveri termoindurenti "long life" anti-corrosione. Supporti e attacchi regolabili in altezza e in larghezza. Omega Vans è proposto nella soluzione modulare: base (sponde e traverse) + kit (serie di supporti variabili in funzione della base e del veicolo).

DA CONSIGLIARE AI CLIENTI PER:

altissima protezione alla ruggine, grande robustezza, notevole capacità di portata. Necessario l'abbinamento al Sistema di Kit attacchi.

Porte-bagages pour véhicules utilitaires, aut cars et véhicules tout terrain. Réalisé en acier profilé galvanisé à 100%. Disponible également en version peinture noire traitée thermodurcissable "long life", anticorrosion. Supports et fixations réglables en hauteur et en largeur. Omega Vans est proposé en solution modulaire: base (rebords et barres transversales) + kit (série de supports variables en fonction de la base et du véhicule).

A CONSEILLER AUX CLIENTS POUR:

protection élevée contre la rouille, grande robustesse, importante capacité de chargement. Doit être associé au système de Kit fixations.

Besonders stabiler Gepäckträger für Kombifahrzeuge, Transporter und Geländewagen aus feuerverzinktem Profilstahl. Lieferbar auch schwarz, pulverbeschichtet mit Langzeit-Korrosionsschutz. Abstützungen in Höhe und Breite verstellbar. Omega Vans ist als Modul-Bausatz erweiterungsfähig: Grundbausatz in verschiedenen Längen und Breiten plus Halterungen je nach Fahrzeugtyp.

PRODUKTVORTEILE FÜR DEN KUNDEN:

Äußerst hoher Korrosionsschutz, sehr robust, besonders stabile und vielseitige Ausführung. Sieht die Verbindung zum Bausatzsystem- Anschlüsse vor.

Roof rack for vans, trucks and off-road vehicles. Made of 100% galvanized steel section. Also available in black painted version treated with "long life" anti-corrosion thermo-setting powders. Adjustable height and width supports and clamps. Omega Vans is proposed in a modular set-up: base (sides and cross-bars) + kit (set of variable supports according to base and vehicle).

TO BE RECOMMENDED TO CUSTOMERS FOR:

maximum protection against rust, great sturdiness, high load capacity. Is to be used in conjunction with the attachment Kit System.

# CONDIZIONI GENERALI DI VENDITA

## CONDITIONS GENERALES DE VENTE – ALLGEMEINE VERKAUFSBEDINGUNGEN

### GENERAL TERMS OF SALE

La ditta produttrice assicura la perfetta rispondenza dei prodotti alle norme di sicurezza e la loro esecuzione a regola d'arte, tuttavia declina ogni responsabilità di incidenti che dovessero accadere a causa del cattivo impiego degli stessi e/o da incuria nell'uso e nella manutenzione.

- 1) Tutte le quotazioni del nostro listino prezzi, per merce resa franco fabbrica non sono impegnative fino all'accettazione dell'ordine.
  - 2) Le spese di spedizione sono a carico del committente.
  - 3) La merce viaggia a rischio e pericolo del committente, anche se venduta in porto franco: pertanto eventuali reclami inerenti al trasporto dovranno essere rivolti allo spedizioniere incaricato.
  - 4) Imballo normale, incluso nel prezzo, extra a convenirsi.
  - 5) Eventuali reclami relativi a difetti della merce dovranno pervenirci entro 8 giorni dalla data della consegna, e se riconosciuti fondati, la nostra responsabilità si limita alla semplice sostituzione del materiale difettoso.
  - 6) Tutti i pagamenti dovranno essere fatti alla ns. sede e non verranno riconosciuti se fatti a persone non munite di nostro mandato.
  - 7) I termini di consegna vengono indicati a puro titolo informativo; eventuali ritardi non potranno dar adito ad annullamenti o ad indennizzi di sorta, né a particolari condizioni di pagamento.
  - 8) L'opera degli Agenti dovrà essere da noi approvata.
- PER EVENTUALI CONTROVERSIE SARÀ COMPETENTE IL FORO DI TORINO. "La Prealpina" si riserva di apportare eventuali modifiche senza preavviso.

La maison productrice garantit la parfaite correspondance des produits aux normes de sécurité et leur exécution selon toutes les règles de l'art; elle décline pourtant toute responsabilité d'incidents qui puissent survenir à cause d'un mauvais emploi et/ou d'incurie dans l'utilisation et l'entretien.

- 1) Tous les prix de notre liste ci-jointe, pour marchandise départ usine ne sont valables qu'en cas d'acceptation de la commande.
  - 2) Les frais d'expédition sont à la charge du client.
  - 3) La marchandise voyage aux risques et périls du client, même si vendue en franco de port: toutes éventuelles réclamations relatives aux défauts de la marchandise devront nous parvenir sous 8 jours de la date de livraison. Si elles seront fondées, notre responsabilité ne sera limitée qu'au remplacement du matériel défectueux.
  - 4) Tous les paiements devront être effectués à notre siège et ne seront pas reconnus si effectués à des personnes non mandatées par nos soins.
  - 5) Les délais de livraison sont indiqués à titre informatif; d'éventuels retards ne pourront donner lieu à aucune annulation ou indemnisation possible, ni à des conditions de paiement particulières.
  - 6) Les actes des devront être approuvés par nous.
- POUR D'EVENTUELS LITIGES SEUL SERA COMPETENT LE TRIBUNAL DE TORINO.
- "La Prealpina" se réserve le droit d'apporter d'éventuelles modifications sans préavis.

Le descrizioni non sono vincolanti. L'Azienda si riserva il diritto di modifica senza preavviso.

Die Herstellfirma garantiert eine einwandfreie Verarbeitung ihrer Produkte nach den Sicherheitsnormen. Sie lehnt jedoch jede Haftung ab für Unfälle sowie deren Folgeschäden, die infolge falscher Anwendung, Fahrlässigkeit und/oder schlechter Instandhaltung vorkommen könnten.

- 1) Die in beiliegender Preisliste aufgeführten Preise verstehen sich ab unserem Werk. Wir behalten uns vor, die Preise jederzeit und ohne Voranmeldung anzupassen.
  - 2) Die Transportspesen gehen zu Lasten des Auftraggebers.
  - 3) Die Ware reist auf Risiko und Gefahr des Auftraggebers, auch bei Lieferung franko Hafen. Allfällige Reklamationen betreffend Transport müssen daher an den beauftragten Spediteur gerichtet werden.
  - 4) Die normale Verpackung ist im Preis inbegriffen. Extra-Verpackung nach Vereinbarung.
  - 5) Eventuelle Reklamationen in Bezug auf Materialfehler müssen innerhalb 8 Tagen nach Lieferdatum angebracht werden, und sofern die Reklamation begründet ist, beschränkt sich unsere Haftung auf den einfachen Ersatz des defekten Materials.
  - 6) Alle Zahlungen haben an unseren Sitz zu erfolgen und werden nicht anerkannt, sofern diese an Personen gemacht werden, die nicht von uns bevollmächtigt sind.
  - 7) Die Liefertermine werden rein informativ angegeben. Allfällige Verspätungen geben kein Recht auf Annullierung oder Schadenersatzforderung, noch auf besondere Zahlungsbedingungen.
  - 8) Die Abmachungen mit unseren Agenten müssen von uns bestätigt werden.
- BEI EVENTUELLEN STREITIGKEITEN IST FÜR ALLE PARTEIEN DER GERICHTSHOF VON TURIN ZUSTÄNDIG.
- "La Prealpina" behält sich vor, eventuelle Änderungen anzubringen.

The manufacturer assures a perfect correspondence of the products to the security norms and their perfect execution, however he declines all responsibilities of incidents which may happen in consequence of a bad employment of them and or careless in the use and maintenance.

- 1) All prices of our enclosed list for goods ex works are valid in case of order acceptance.
  - 2) The forwarding charges are at customer's expense.
  - 3) The goods travel at the customer's risk, even if they are sold carriage free: therefore any complaints concerning the transport shall be addressed to the charged forwarding agent.
  - 4) Normal packaging, included in the price, extra packing to be agreed upon.
  - 5) Any complaints concerning goods defects shall reach us within 8 days after the delivery date. If they are well-grounded our responsibility is restricted to replacing of the defective material.
  - 6) All payments must be made to our headquarters and are not recognized if they are made to unauthorized persons.
  - 7) The delivery terms are mentioned for information only; any delays can allow no cancelling or indemnity, or particular terms of payment.
  - 8) The Agent's action shall be approved by us. THE COURT OF TORINO WILL BE COMPETENT IN CASE OF ANY CONTROVERSIES.
- "La Prealpina" reserves the right to make changes.
